WELCOME SPRING

In Grade 1/2, students continue to learn about significant events and celebrations around the world. With the arrival of Spring, they learned about Hanami, a celebration that takes place every Spring in Japan. Hanami literally translates to “flower watching” and is an annual celebration of Sakura and springtime.

People gather around cherry blossom trees with family and friends to enjoy delicious drinks and food under the beautiful pink trees, often with the petals gently snowing from the branches when in full bloom. Using potato stamps, students created beautiful paintings of the Sakura flower.

Learner Profile of the Month Balanced

This month, students worked on being balanced.

PYP EXPO IS UNDERWAY!

The Grade 5/6 students have been hard at work preparing their Expo projects for our PYP Exhibition on Wednesday May 18th. This year's projects have a variety of topics, each relating to the students' personal interests. Last week, our students virtually interviewed experts in their fields and gained first-hand knowledge about their projects. The Grade 5/6 students continue to work on their displays and interactive experiences for their presentations.
