

ACADECAMP SUMMER 2024 (AGES 6-10)

Sessions and Registration Form

This summer, campers will be “Traveling around the world in 38 days”. Campers will be immersed in explorations of real-life math, science, art, technology and engineering. AcadeCampers will participate in a variety of hands-on, cooperative learning activities within a bilingual environment. We maintain small groups, and offer experiential learning across the ages.

Returning this summer is our enriched Athletics summer programme. As we would like to spend as much time as possible outside and being active. AcadeCap has developed an age-specific, specialized instruction in athletics. Each week, campers of all ages will participate in a program to develop athletic skills in individual and team sports. This is in addition to their time spent in i STEAM (Science Technology, Engineering, Art, Math) and coding.

The weekly, bilingual AcadeCamp STEAM experience is enhanced this summer by:

- Explorations in real-life, hands on theme activities
- Cooperative, multicultural, and a "I-can-relate" context
- Small Group, personalized and across the ages learning, teacher supervised
- Athletics
- Outdoor Activities

Week 1: June 24 - 28

WORLD MAPS & ORIENTEERING

Discover places and spaces on earth through mapping and orienteering! Campers will develop the ability to read, utilize and create maps from around the world and across time. Through diverse activities such as outdoor orienteering games, campers will engage with the elements of cartography. They will practice moving north, south, east, and west and use cardinal directions to read a map. They will map the camp space, and places in the park, measure distances and explore maps as miniatures versions of places. Through learning mapping skills, they will deepen their understanding of local, national and international geography and history. Campers will learn about indigenous map-making and how it relates to re-indigenizing the land. Maps will provide them with an interesting lens to explore the history of the world and its people. By the end of this week, campers will be expert map-makers and readers!

Week 2: July 2 - 5 (4 days)

CULTURAL EXPRESSIONS

From crafting diverse artworks inspired by global traditions to dancing to the beats of different cultures, creating harmonies in multicultural music sessions, and listening to rich stories, this week is a celebration of artistic creativity and diversity. Through interactive workshops, performances, and hands-on activities, young artists will explore the vibrant world of cultural expressions and traditions. Join us for a week of designing and creating your own music instrument, dance choreography, custom puppets, and more; the creative possibilities are endless.

Week 3: July 8 - 12

ECOSYSTEMS & SUSTAINABILITY

Set out on an adventure of eco-exploration, and discover the wonders of our planet's ecosystems. From exploring lush rainforests to uncovering the mysteries of deserts, diving into the depths of oceans, and understanding renewable energy and sustainable practices, campers will learn to become environmental superheroes. Through hands-on experiments, eco-friendly crafts, and nature exploration, the young budding environmentalists will gain a deeper understanding of the interconnectedness of life on Earth. Campers will strive to innovate a solution to a sustainability issue of their choice to share at the end of the week.

Week 4: July 15 - 19

CITIES AND HOUSES

Join us as we journey around the world, one city and house at a time! Traveling through bustling metropolises and quaint villages, young architects and engineers will discover unique cities, houses and lifestyles that shape communities worldwide. They will create different structures using various materials and test them against the forces such as a tower of sticks during an earthquake, or a dome of newspaper rolls during a tornado. From designing futuristic cityscapes to building different structures and testing out the physics, campers will explore the forces and the science behind mind boggling structures.

Week 5: July 22 – July 26

PLAY: GAMES AND TOYS

Come play with us! Get hooked on the appealing world of play and games from every corner of the globe. From mastering traditional board games to crafting unique toys, playing cherished historical games and national sports, our campers will embark on a journey that transcends borders. Engaging activities, interactive workshops, and collaborative play sessions will not only foster a love of play and games but also promote cultural understanding and teamwork. Why not design an award-winning board game or toy?

Week 6: July 29 – August 2**MATH AND SCIENCE**

Open your mind to the diversity of math approaches as well as the scientific and technological innovations from different cultures. From ancient mathematical puzzles, to scientific discoveries and mysteries, to learning to code Dash Bots, our campers will develop a love of solving problems, critical thinking and inquiry-based learning. Campers will be challenged daily with a manifold of stimulating individual and team-based math and science activities to conquer. It is a week of global exploration, math and scientific knowledge and problem-solving empowering our campers to design and innovate to their heart's content.

Week 7: August 6 -9 (4 days)**MOTION PICTURES**

Calling all cinephiles! Grab your popcorn and snacks as we plunge into the creative world of storytelling around the world via filmmaking. Campers will view snippets of films and shows from around the world to reenact and enjoy. Through tailored activities, they will engage with the details of production, script-writing, set-making, visual effects, camera angles, and more. As directors they will craft their own mini-movies inspired by different cultures and trends. Welcome to the world of filmmaking. Lights, camera, action!

Week 8: August 12 - 16**ARCHEOLOGY**

Step back in time and explore the wonders of ancient civilizations, the people and the clues they left behind! Transform into an archeologist to uncover the events and accomplishments that shaped the civilizations, from the majestic Mayan temples to the impressive architecture of Babylonia. They will discover the science and art of archeology and find out what it takes to dig up the past and preserve the artefacts by recreating an archeological site. This week they will travel the world on an unforgettable adventure fostering a deep appreciation for cultural diversity and past achievements!

2024 SUMMER READING & WRITING PROGRAMME AVAILABLE WEEKS 4 TO 8**Systematic Multisensory Intensive Literacy Education (SMILE)**

For students with reading and writing difficulties, we offer SMILE, Orton Gillingham-based multisensory teaching sessions), in addition to the activities provided during our AcadeCamp, or AcadeCoder sessions. The OG multisensory teaching sessions will be offered for 45 minutes, 5 times a week (4 times a week during holiday weeks), and the participant must register for at least 4 weeks, or preferably all summer, in order for the programme to be effective. If a student has not been evaluated previously, pre- and post-testing will be provided. With the Orton Gillingham approach, a student learns using the visual, auditory, kinesthetic, and tactile senses simultaneously. The OG multisensory teaching sessions will take place within the 9:00 am – 4:00 pm camp day.

Additional Information

Camp Hours:	9:00 am – 4:00 pm
Pre- & Post-Camp Care:	8:00 am – 9:00 am; 4:30 pm – 5:00 pm
Lunch Program:	Includes 2x pizza on Mondays (on 5-day weeks), hot lunch with dessert & fruit Tuesdays – Fridays
Contact Information:	Email us at info@acadecap.org or call 613-721-3872
AcadeCamp FAQ:	What do I pack? What is the daily schedule? For more information, please visit the AcadeCamp FAQ page at http://www.acadecap.org/frequently-asked-questions-acadecamp/

****Please note that masks are optional. However, if your child is returning from illness, they are to wear a mask for 10 days following the onset of the symptom(s).**

Registration Form: Selection of Weeks

- 1: June 24 - 28 WORLD MAPS & ORIENTEERING
- 2: July 2 - 5 (4 days) CULTURAL EXPRESSIONS
- 3: July 8 - 12 ECOSYSTEMS & SUSTAINABILITY
- 4: July 15- 19 CITIES & HOUSES
- 5: July 22 - 26 PLAY: GAMES AND TOYS
- 6: July 29 – August 2 MATH & SCIENCE
- 7: August 6 - August 9 (4 days) MOTION PICTURES
- 8: August 12 – August 16 ARCHEOLOGY
- Summer SMILE (4 weeks)** Please indicate preferred weeks ex. 1,2,3,4

Fees: **\$340** per 5-day week
\$272 per 4-day week (holiday week)

Discounted rate for all 8 weeks \$2,325.00
Summer OG Multisensory Teaching Option (SMILE): \$990.00
4 weeks, 45 minutes sessions daily

Full 8 weeks of Camp		\$ _____
